Ibiza : escalada deportiva

Antoni Bonet Martí, David Munilla Fauró

Ibiza : escalada deportiva Antoni Bonet Martí, David Munilla Fauró

This guidebook describes the limestone rock climbing available on the Island of Ibiza off the coast of Spain. The guidebook details nearly 400 bolted routes, which range from grey limestone slabs, overhangs with jugs & tufas, roofs, multi-pitch routes, short technical single pitch routes and a wide range of grades that will suit climbers of all abilities. All the routes are illustrated on full colour photo-topos with French grades. At the start of each crag, there is information regarding exposure to the sun, how good the parking is, quality of the crag, style of the climbing and the approach time from the car park. Each crag has a location map (including GPS co-ordinates), and a good description giving a general overview of the area and type of rock climbing to be found there. All the routes are illustrated on full colour photo-topos with French grades. Published in February 2009 by Desnivel this guidebook is written in Spanish and English text throughout. Number of pages is 126. Size is 150mm x 210mm (A5 format).
