*Juan Ram Rallo*

## **Un Modelo Realmente Liberal (Accion Empresarial)** Juan Ram Rallo

This book provides different subjects that share a liberal perspective. The Spanish reader can compare the reality in which they live with the economic and social organizational systems from other countries that have provided more than positive results. The pages deal with such disparate subjects as territorial and judicial organization, protection of the environment, educational and sanitation systems, and how to get businesspeople to create the greatest number of jobs.
