*Neil Gaiman*

## **Stardust** Neil Gaiman

Gaiman, author of *Neverwhere* and the graphic novel series "The Sandman," has created an original and well-written fairy tale. Young Tristran Thorn has grown up in the isolated village of Wall, on the edge of the realm of Faerie. When Tristran and the lovely Victoria see a falling star during the special market fair, Victoria impulsively offers him his heart's desire if he will retrieve the star for her. Tristran crosses the border into Faerie and encounters witches, unicorns, and other strange creatures. *Library Journal Movie* features: Sienna Miller, Rupert Everett, Robert De Niro, Michelle Pfeiffer and Peter O'Toole.

Amazon Review

The versatile Neil Gaiman is best known for scripting upmarket graphic novels, most famously the lengthy Sandman cycle. Stardust was a joint project with artist Charles Vess, a short novel of fairyland enriched by at least one sumptuous painting on every page. This edition contains only the (slightly rewritten) text, alas.

Gaiman's story looks back to days before commercial genre fantasy, to Lord Dunsany's and Hope Mirrlees's visions of Faerie as a misty country which is at the same time temptingly close and "over the hills and far away". The simple tale is new but has a twice-told familiarity, crafted like a mosaic from many traditional elements. Hopelessly crossed in love, a boy of half-fairy parentage leaves his mundane Victorian-English village on a quest for a fallen star in the magical realm. The star proves to be an attractive woman with a hot temper, who plunges with our hero into adventures featuring witches, the lion and the unicorn, plotting elf-lords, ships that sail the sky, magical transformations, curses whose effects rebound, binding conditions with hidden loopholes and all the rest. Stardust is by turns knowing, poetic, comic and grisly and exudes considerable charm. If only we had those full-colour Vess paintings too. --David Langford Review

In prose that dances and dazzles, Gaiman describes the indescribable: the eerie colours, ravishing scents and dangerous laughter of Faerie (*Susanna Clarke*)

A new fairy tale about a young man's hunt for his heart's desire, told in clear, rolling prose (*Guardian*) From the Publisher

Includes exclusive extra material: A Prologue to WALL, an unwritten novel set in the world of Stardust
