VMC Barbarian Jig Head Qty 10

The sticky sharp VMC Barbarian jig head have been our "go to" jig over the last couple of seasons.

The unique design of the technical curve allowed a maximum transfer of energy towards to point whilst setting the hook. This results in a faster and more effortless penetration of the point and up to 25% improved hooking rate.

The hooks V shape locks the fish close to the shank of the hook, applying less pressure on the point. This prevents the hinging effect and big fish self releasing.

The Barbarian hooks are covered in a thin layer of Red varnish that covers and protects the hook without affecting the sharpness of it point.
